Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on 7/9/04 has been considered by the examiner.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 17, 19, and 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Golichowsk et al. (US 6,024,376 A).

Golichowski et al. discloses a mobile carrier 10 capable of carrying a medical device comprising a platform 13 with an array of swivel wheels (or castors) 48,49, and a handle 12 connected to said platform by a hinge 31,32, wherein said handle is restricted from entering the plane of the platform by means of a stop 39 which leaves the handle at an angle relative to the platform plane, as shown in figures 1-8. Golichowski et al. does not disclose the angle of the beveled stop as being 15 degrees from the horizontal plane. It would have been obvious to one having ordinary skill in the art at the time of the invention to have beveled the stop of Golichowski et al. at any angle, including 15 degrees, in order to stop the handle at an adequate height for a user.

Art Unit: 3618

With respect to claim 19, Golichowski et al. does not disclose flexible straps. The use of flexible straps for securing items for transport is well known in the art and therefore it would have been obvious to one having ordinary skill in the art at the time of the invention to have provided the cart of Golichowski et al. with flexible straps in order secure items on the cart for transport.

With respect to claim 20, simply adding a third pair of castors is not patentable unless it produces an unexpected result and therefore it would have been obvious to one having ordinary skill in the art at the time of the invention to have provided the cart of Golichowski et al. with an extra pair of castors in order to increase the support of the cart.

Allowable Subject Matter

4. Claims 1-16 are allowed.
5. Claim 18 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrey J. Restifo whose telephone number is (703) 305-0579. The examiner can normally be reached on M-F (10:00-6:00), alternate Friday off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christopher P. Ellis can be reached on (703) 305-0168. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
